CRIMINALS DON'T CARE SO WHY LET THEM GET AWAY WITH IT?

A handler is a criminal who profits from buying and selling stolen goods.

If handlers operate in your area then this could increase your chances of becoming a victim of crime, as criminals will take advantage of any opportunity to commit crime, no matter where they are.

You can stop these handlers from operating and put them out of business by contacting the charity Crimestoppers anonymously with any information.

Criminals do not care whose life they ruin.

Don't let them get away with it.

CRIMINALS DON'T CARE WHOSE LIFE THEY RUIN

You have worked hard to get the things that you own but criminals will try to steal them in many different ways, such as:-

- Burglary of your home or work place,
- Theft of or from your vehicle,
- Robbery by using violence or threats

Any of these crimes can have a devastating effect on you, other family members and friends.

This leaflet urges you to contact the independent charity Crimestoppers to pass on information about anyone you know or suspect might be involved in any sort of criminal activity especially the above crimes.
